CONSTRUCTION DETAILS FOR NEW BOREHOLE

Name of Person Completing this Report	Dennis Miller
Drilling Start Date	March 28 th , 2022
Drilling End Date	March 31 st , 2022
GPS COORDINATE	a. LATITUDE: 15, 27. 927N b. LONGITUDE: 086, 20. 526W
Altitude (In Meters)	113 Meters
Who is the Landowner where the borehole is located?	Public Land
What was the drilling method?	a. Air b. Wet Rotary c. Combination of Air and Wet Rotary d. Other
Total Depth of the completed borehole (In meters)	27 Meters
What is the static water level (meters below ground)?	9 Meters
What is the Pumping Water Level (meters below ground)?	18 Meters
What is the Pump Intake Level (meters below ground)?	18 Meters
What is the depth of the bottom of the Sanitary Seal (meters below ground)?	27 Meters
Casing Diameter in the top section of the borehole (in mm):	4 inches

The team from First Baptist Church-Skiatook arrived at the drill site in Aldea San Luis on Monday. This community has over 2,500 community members and has been divided into sectors. The team was able to provide a well with clean water in Barrio Fe y Esperanza, benefitting approximately 120 people with this well.

Usually, in rural areas from Honduras, one can find these types of houses. Some of the houses are made from clay, while some others are made with bricks. To the far left, you can see some roof sheets standing upright to cover this house's latrine.

The team was ready to drill the well needed in Aldea San Luis, Barrio Fe y Esperanza.

The team worked hard to accomplish this goal in four days.

[oravihonduras](https://www.instagram.com/oravihonduras)

Despite the hard work, the team was able to taste delicious foods and local fruits prepared by the local ladies.

Some of these foods include watermelons, donuts with black, Honduran coffee, and the famous baleadas, which is a traditional dish served either in the morning or at dinner.

During the well dedication ceremony, the team, along with Agua Viva Internacional staff, were able to reunite the people from San Luis, Barrio Fe y Esperanza, to pray for this project, share words of encouragement and gratitude.

In addition, Dennis Miller gave instructions regarding the proper use of the water pump.

During the drilling process, there is always time to minister and share our testimonies with the people of each community, and this week was not the exception. One of the team members from First Baptist Church -Skiatook had the opportunity to share his personal testimony with the purpose of encouraging the community members. It was a true blessing.

Agua Viva
INTERNACIONAL

In addition to the drilling process, health lessons are shared with the children and ladies from the community. This week, Sony Watler was able to prepare and share the lessons with children from a local public school in San Luis.

During these lessons, Sony, with the help of other team members, share health lessons and the Word of God to the children using Bible lessons and stories.

Children are usually eager to participate in these lessons and this week was not the exception. They were ready to participate in every activity Sony had prepared and were happy to learn and share everything at home.

Agua Viva
INTERNACIONAL

Once again, thank you First Baptist Church – Skiatook and Calvary Church for understanding that we live the Word of God and show our faith in Him through tangible actions towards our neighbor.

“For I was hungry and you gave me something to eat; I was thirsty and you gave me something to drink; I was a stranger and you took me in; I was naked and you clothed me; I was sick and you took care of me; I was in prison and you visited me.”

Matthew 25:35-36
